PROJECT NAME:
Milton Prison - Otago
New Facility

PROJECT REQUIREMENT:

Due to the increased numbers of inmates held in NZ Prisons a new facility South of Dunedin was constructed to take up some of these numbers.

The call was made for an easily maintained PVC flooring and Marley Eclipse PUR sheet vinyl fitted this criteria.

Marley Eclipse PUR offers an impervious finish for floors and walls to seal of the substrate and take away other costs such as wall linings or claddings.

NUPLEX Solution

Solid PVC, easy maintenance, 2mm vinyl floorcovering.

Marley Eclipse features a special matt finish for ease of cleaning.

The product does not require a finishing polish as the chip look product is reinforced with polyurethane throughout the total 2mm thickness of the product.

Cleaning in general is require with only buffing of the product to keep up appearances.

No added costs with polishes are required with the product.

Due to the vinyl being thermo welded, it has enabled the installer to take the vinyl up the wall to floor junctions and weld creating a seamless junction.

Therefore creating a surface that is sealed to avoid concealment of weapons, drugs etc by the inmates.

Product: Marley Eclipse

Size: 12,000m²

Contractor: Carpet Court
Commercial - Dunedin

Specifier: Warren & Mahoney

Builder: Hawkins Construction

Completed: November 2006
