

Selection Chart

This covers a range of flooring materials available in New Zealand. The breadth of product types is intended to show adhesive suitability rather than describe all flooring materials available. If in doubt about your particular situation or floor covering, please contact Nuplex Industries Ltd.

✓ = suitable and recommended

✗ = definitely not suitable

no selection - normally not done

□ = other adhesives that more suitable

This bulletin is for general guidance only and may contain inappropriate information under particular conditions of use. It is the users responsibility to ensure that the adhesive is suitable for the intended application. If in doubt about any aspect of suitability or application, seek advice from Nuplex Industries Ltd. before using.

Adhesive Range: The Lockfast adhesive range covers many different product types for many applications. Many of these are not described in the brochure. Please contact your local Nuplex branch about your specific requirements.

As these products are **New Zealand made**, we can tailor make or modify products for specific applications.
